RE: Conflict Minerals

The enactment of U.S. Congress HR 4173, specifically with regard to section 1502-Conflict Minerals, addresses serious issues and concerns within the supply chain for raw materials used in electronic devices. As a privately held corporation, Control Concepts Inc. is not required to file Form SD with the SEC. However, Control Concepts, Inc. is committed to helping our customers comply with all reporting requirements through the use of Tier 1 suppliers.

We have conducted a survey of our suppliers and it is clear that much progress has been made through the establishment of "CFSI" by the EiCC & GeSI. We do not currently support the CMRT template. However, customers are free to contact our various suppliers as listed to assess the progress towards Conflict Mineral compliance and reporting.

We will continue to monitor information from our suppliers and manufacturers as it becomes available. You may find this information at [www.ccipower.com/conflictminerals](http://www.ccipower.com/conflictminerals).

Sincerely,

Cory Watkins  
President  
Control Concepts Inc.
